WEED SOCIETY WALKABOUT  
CENTRAL WEST N.S.W.

13th & 14th OCTOBER 1986

An interesting and varied programme has been organised for this activity. Such activities have not always been well attended in the past. *We urge you to make the effort and lend support to the work of the Society and the speakers who make themselves available.*

NOTE: There will be a full committee meeting following the address on Monday.

PROGRAMME FOR  
WEED SOCIETY WALKABOUT

MONDAY 13th OCTOBER

- 10.00 Welcome by Local Government in relation to Noxious Weeds Awareness Week.
- 10.15 Dr. Malcolm Campbell - Implications of the ecotypic variation in St. John's Wort and Poa tussock in N.S.W.
- 10.45 Mr. Peter O'Brien - Weed control in vegetables with special reference to developing substitutes for 'Lasso' which has been deregistered for use in vegetable production.
- 11.15 Mr. Bill Koffman - Weed control in deciduous orchards, highlighting deficiencies in techniques and equipment.
- 11.45 Depart for Macquarie Woods (mid-way Bathurst/Orange on Mitchell Highway - Forestry Commission Bicentennial project).
- 12.15 LUNCH (sandwiches provided)
- 12.45 Mr. Mike Hall - Weed control in establishing forests.
- 13.30 Depart for A.R.&V.C., Orange
- 14.00 Dr. Peter Dowling - Pre-cropping seedbed preparations with particular reference to direct drilling.
- 14.45 Mr. Jim Dellow - Control of Paterson's curse using spray-graze.
- 15.15 Address by Dr. Bruce Auld - Current trends in the use of economic thresholds in weed control.
- 16.30 Committee Meeting.
- 19.00 Dinner. A la carte.

TUESDAY 14th OCTOBER

- 08.30 Mr. Chris Bourke - Tribulus poisoning in sheep, including photosensitization, nitrate poisoning and locomotory disorders.
- 09.30 Depart for visits to a variety of Industry and Government field trials at Carcoar, Canowindra and Eugowra.
- Trials to be inspected include:
- . brush control
  - . cereal/herbicide screen
  - . herbicides for weed control in sub clover
  - . field pea sensitivity to in-crop herbicides
  - . post-emergence herbicides for wild oat and wild radish control in wheat
  - . cereal crops in rotation with field peas, lupins and faber beans.
- 15.00 Programme completed.

\*\*\* IMPORTANT NOTICES \*\*\*

- Accommodation is heavily booked in Orange during the week of the Walkabout so make your reservations early.
- Please advise organizers if you are flying and require transport to or from airports.  
NOTE: People using HAS Airlines may wish to depart from Cudal Airport rather than Orange on Tuesday as we will be travelling through Cudal.
- Please return the attached slip promptly so we can make appropriate catering arrangements.
